1 Overview

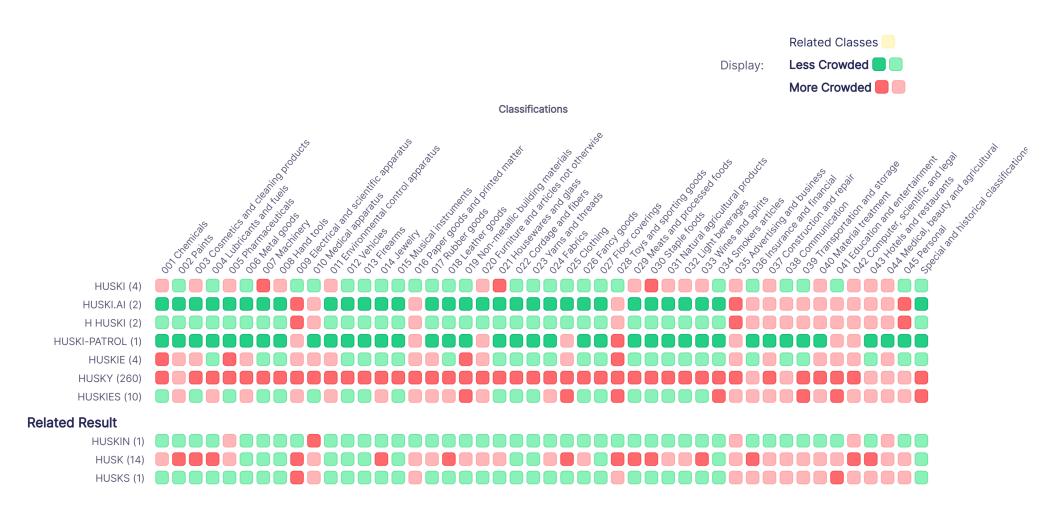

Our search results indicate that the "HUSKI AI" mark with the image below has a moderate likelihood of getting approved for registration by the U.S. Patent and Trademark Office ("USPTO") for its intended products or services. Similar marks in current registrations or pending applications have been located. This mark appears to have a moderate chance of getting registered if an application for this mark is filed with the USPTO as of the reporting date.

Search Result and Analysis

Our search is conducted through the USPTO Trademark Electronic Search System (TESS) and other trademark databases and/or search engines. A multitude of factors are considered for our trademark registrability search, including different combinations of keywords or syllables, phonetic spellings, and/or image similarity match.
